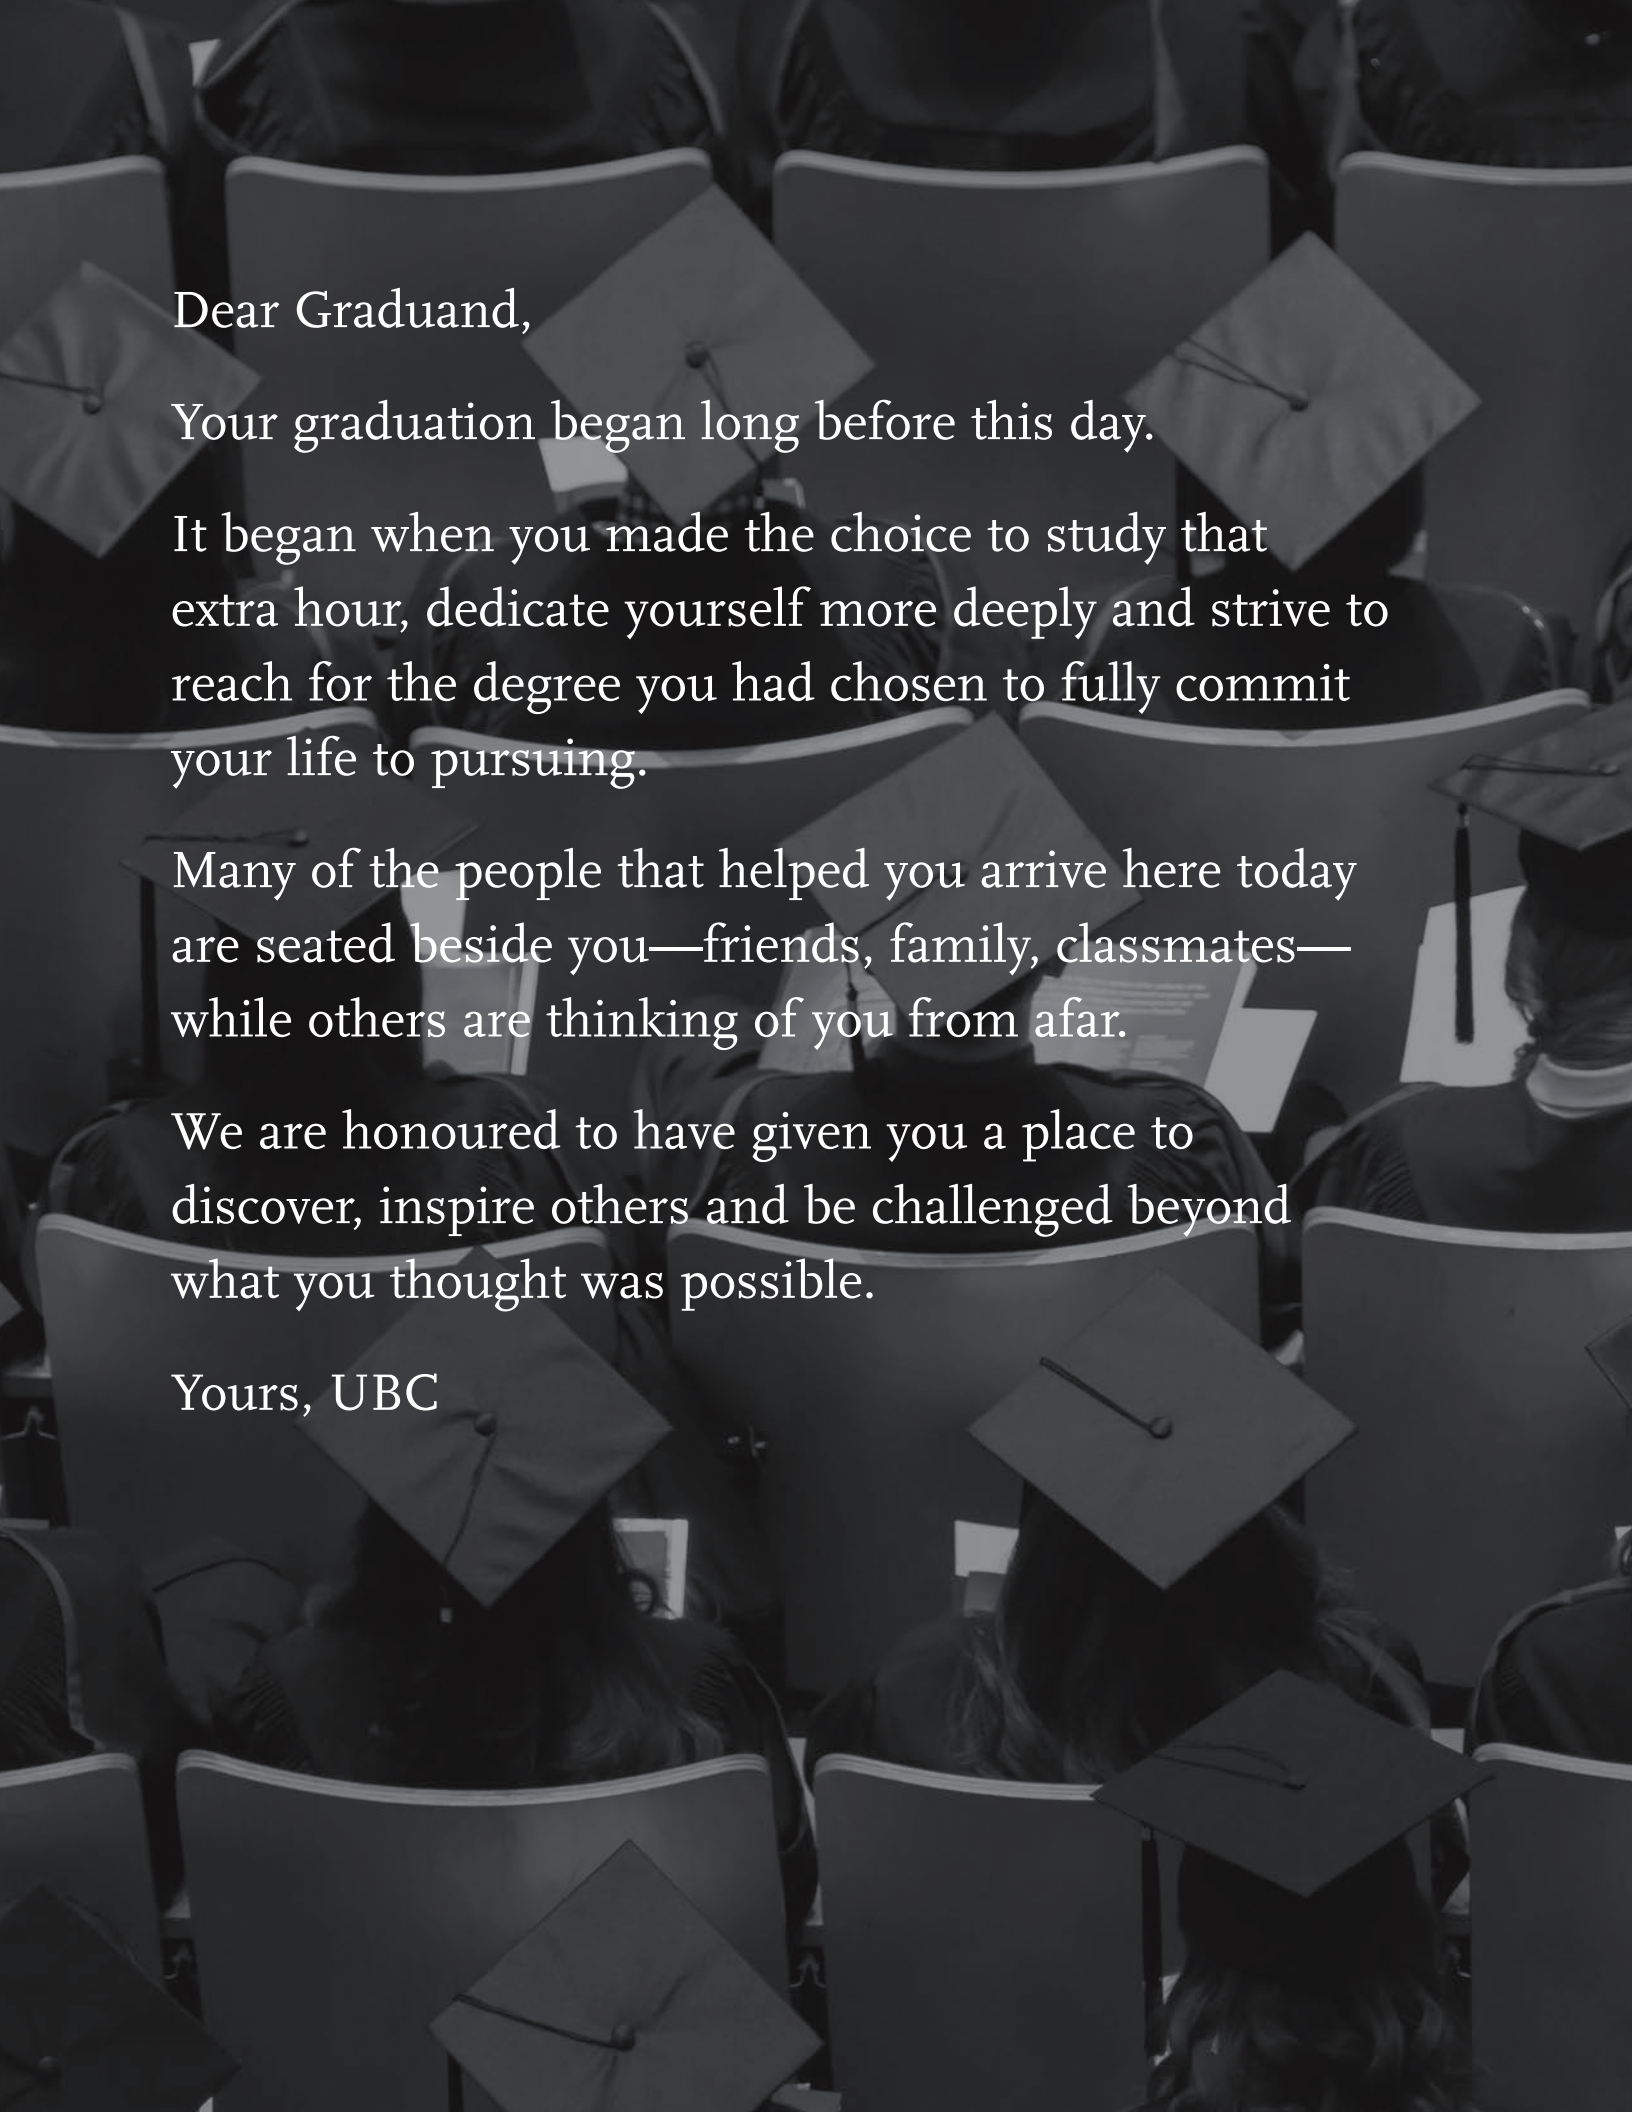
FALL CONGREGATION 2023

NOVEMBER 22–24, 2023

THE CHAN CENTRE FOR THE PERFORMING ARTS



Dear Graduand,

Your graduation began long before this day.

It began when you made the choice to study that extra hour, dedicate yourself more deeply and strive to reach for the degree you had chosen to fully commit your life to pursuing.

Many of the people that helped you arrive here today are seated beside you—friends, family, classmates—while others are thinking of you from afar.

We are honoured to have given you a place to discover, inspire others and be challenged beyond what you thought was possible.

Yours, UBC

We acknowledge that UBC's campuses are situated on the traditional, unceded, ancestral territories of the Musqueam, Squamish and Tsleil-Waututh, and in the territory of the Syilx Okanagan Nation.

The UBC graduation journey has been forged by the spirit of the university's motto, *Tuum Est*, (meaning "it is yours") since 1915. Today, you, the graduating class of 2023, now shape UBC's history by making it your own.

1916

One of the first graduating classes was the Arts Class of 1916, pictured here at a party at the home of Mary Wilons. In UBC's first year, there were only three faculties: Arts, Applied Science and Agriculture, with 379 registered students and 34 faculty members.

1920s

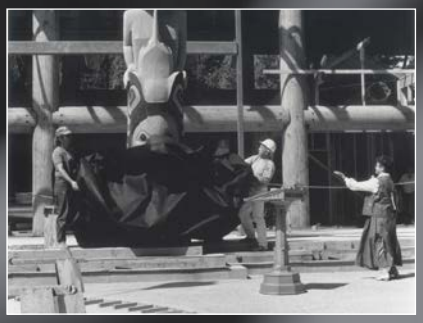
The twenties saw the student-led Great Trek to UBC's new Point Grey campus, establishing the university as a place where students could help shape a better world. The AMS incorporated as a non-profit society and the university began awarding its first graduate degrees to students. In the *Ubyssey*, published in September 23, 1925, students described the new campus with a sense of wonder: "We are dazed with the appearance of architectural cleanliness and bewildered by our lineal freedom."

1940s

The forties were an era of tremendous change at the university as both students and faculty embraced the war effort. In 1943, new President Norman MacKenzie began in earnest to expand the university, and new departments were formed along with new buildings to house them. These included Brock Hall, the first student union building. By the 1950s, UBC had established itself as a comprehensive university and top choice for students in BC and beyond.

1960s

Student numbers continued to escalate alongside the scholarly activities that began to define UBC as a leader in research. The campus was alive with sixties counterculture, and a sixth president of UBC was elected by the name of Dr. Walter Gage. New student residences were created to respond to the expanding student body, as well as a new student union building. Students gained influence at the university and were elected to the University Board of Governors for the first time.



1980s

With over 34,000 students registered at the beginning of the eighties, UBC began attracting scholars from all over the world. Engineering students were in the news frequently for their pranks, which included the famous Ladner Clock Tower stunt, in which students pulled off hoisting a white Volkswagen Bug onto the top of the tower. Dr. Martha Piper was elected President in 1997 and ushered in an era of international engagement that saw UBC step onto the world stage as an educator and global centre for research excellence.

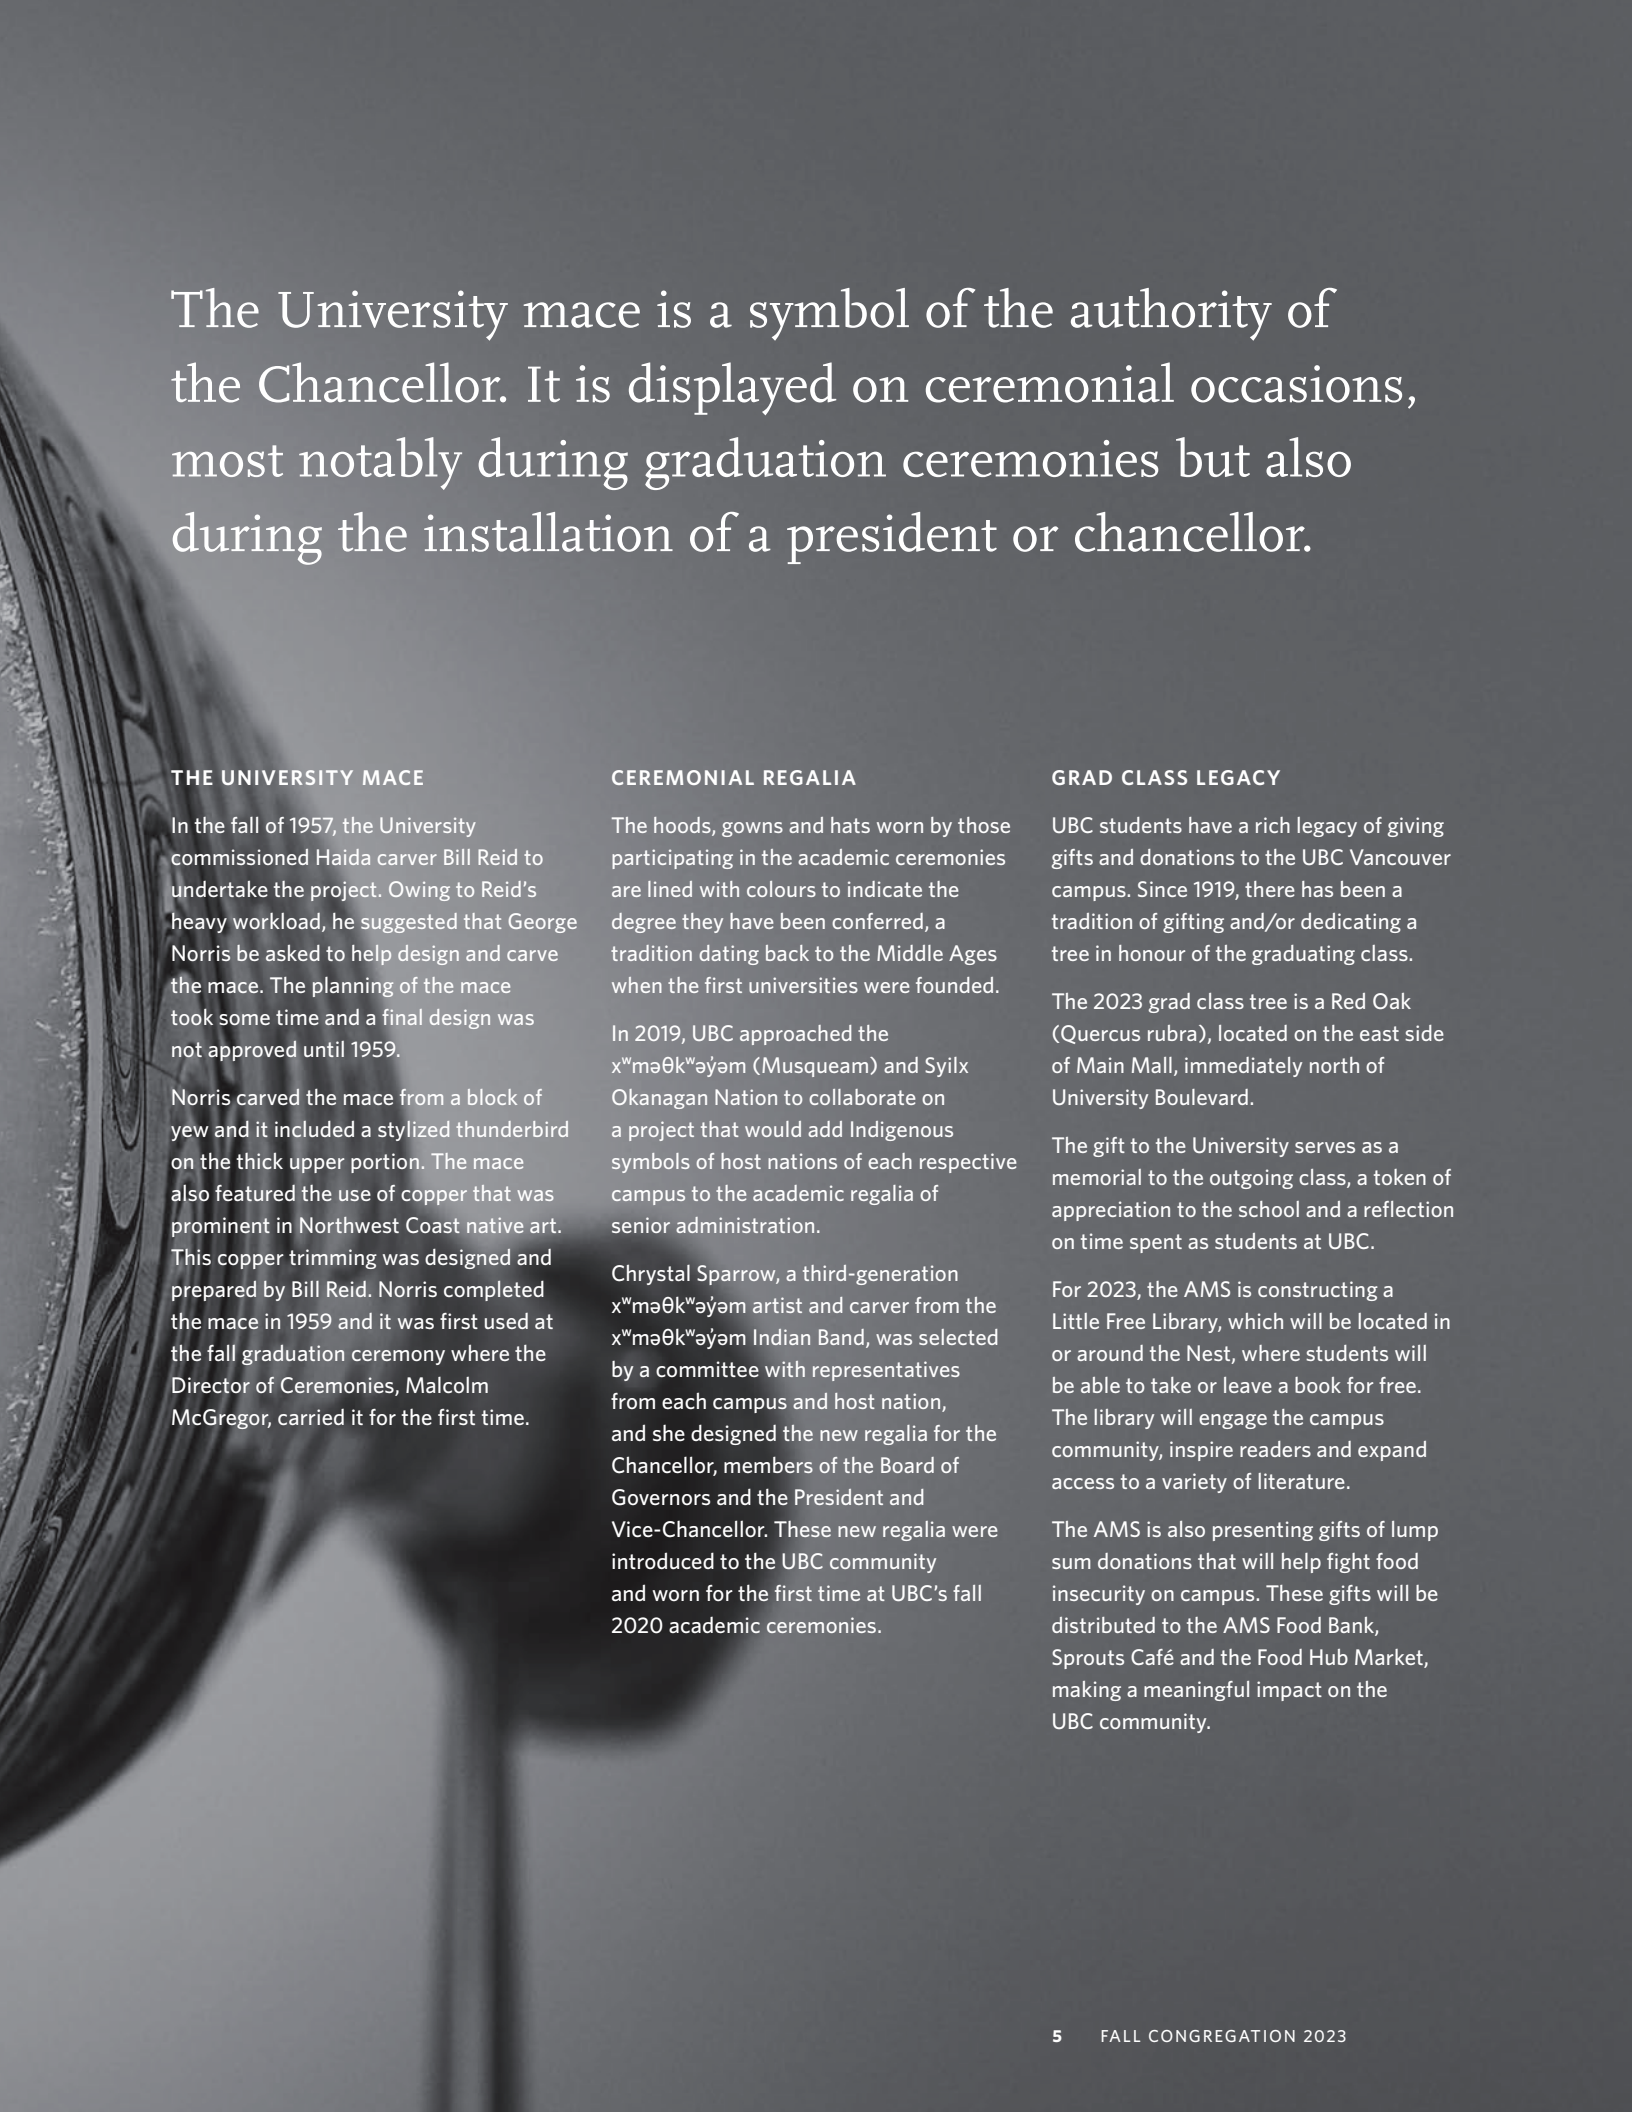
2000s

UBC's Okanagan campus was established in 2005 and in September of that year, 3,500 students started classes at the new institution alongside an opening ceremony celebrating the occasion. UBC's welcome in Syilx Okanagan territory was formalized with the signing of a Memorandum of Understanding which pledged to build long-term, collaborative relations.

2023

This year marks the 30th anniversary of both the First Nations Longhouse and X̱wi7x̱wa Library on the UBC Vancouver campus. Opened in 1993, the Longhouse serves as a "home away from home" for Indigenous students, as well as an academic, social, spiritual and cultural hub. It's managed by the First Nations House of Learning, based within. The adjacent X̱wi7x̱wa (pronounced *whei-wha*) Library is a centre for academic and community Indigenous scholarship and a branch of the UBC Library.

TUUM EST



The University mace is a symbol of the authority of the Chancellor. It is displayed on ceremonial occasions, most notably during graduation ceremonies but also during the installation of a president or chancellor.

THE UNIVERSITY MACE

In the fall of 1957, the University commissioned Haida carver Bill Reid to undertake the project. Owing to Reid's heavy workload, he suggested that George Norris be asked to help design and carve the mace. The planning of the mace took some time and a final design was not approved until 1959.

Norris carved the mace from a block of yew and it included a stylized thunderbird on the thick upper portion. The mace also featured the use of copper that was prominent in Northwest Coast native art. This copper trimming was designed and prepared by Bill Reid. Norris completed the mace in 1959 and it was first used at the fall graduation ceremony where the Director of Ceremonies, Malcolm McGregor, carried it for the first time.

CEREMONIAL REGALIA

The hoods, gowns and hats worn by those participating in the academic ceremonies are lined with colours to indicate the degree they have been conferred, a tradition dating back to the Middle Ages when the first universities were founded.

In 2019, UBC approached the xʷməθkʷəy̓əm (Musqueam) and Syilx Okanagan Nation to collaborate on a project that would add Indigenous symbols of host nations of each respective campus to the academic regalia of senior administration.

Chrystal Sparrow, a third-generation xʷməθkʷəy̓əm artist and carver from the xʷməθkʷəy̓əm Indian Band, was selected by a committee with representatives from each campus and host nation, and she designed the new regalia for the Chancellor, members of the Board of Governors and the President and Vice-Chancellor. These new regalia were introduced to the UBC community and worn for the first time at UBC's fall 2020 academic ceremonies.

GRAD CLASS LEGACY

UBC students have a rich legacy of giving gifts and donations to the UBC Vancouver campus. Since 1919, there has been a tradition of gifting and/or dedicating a tree in honour of the graduating class.

The 2023 grad class tree is a Red Oak (Quercus rubra), located on the east side of Main Mall, immediately north of University Boulevard.

The gift to the University serves as a memorial to the outgoing class, a token of appreciation to the school and a reflection on time spent as students at UBC.

For 2023, the AMS is constructing a Little Free Library, which will be located in or around the Nest, where students will be able to take or leave a book for free. The library will engage the campus community, inspire readers and expand access to a variety of literature.

The AMS is also presenting gifts of lump sum donations that will help fight food insecurity on campus. These gifts will be distributed to the AMS Food Bank, Sprouts Café and the Food Hub Market, making a meaningful impact on the UBC community.

On behalf of almost 400,000 UBC alumni from around the world, it is my pleasure to bring greetings and congratulations to members of the graduating class.

Indeed, the completion of degree requirements exemplifies intelligence, discipline and resourcefulness. But beyond these traits, my greatest hope is that your university experience has taught you new ways of thinking, and specifically a greater understanding of the importance of reliable evidence in the pursuit of truth and informed opinion.

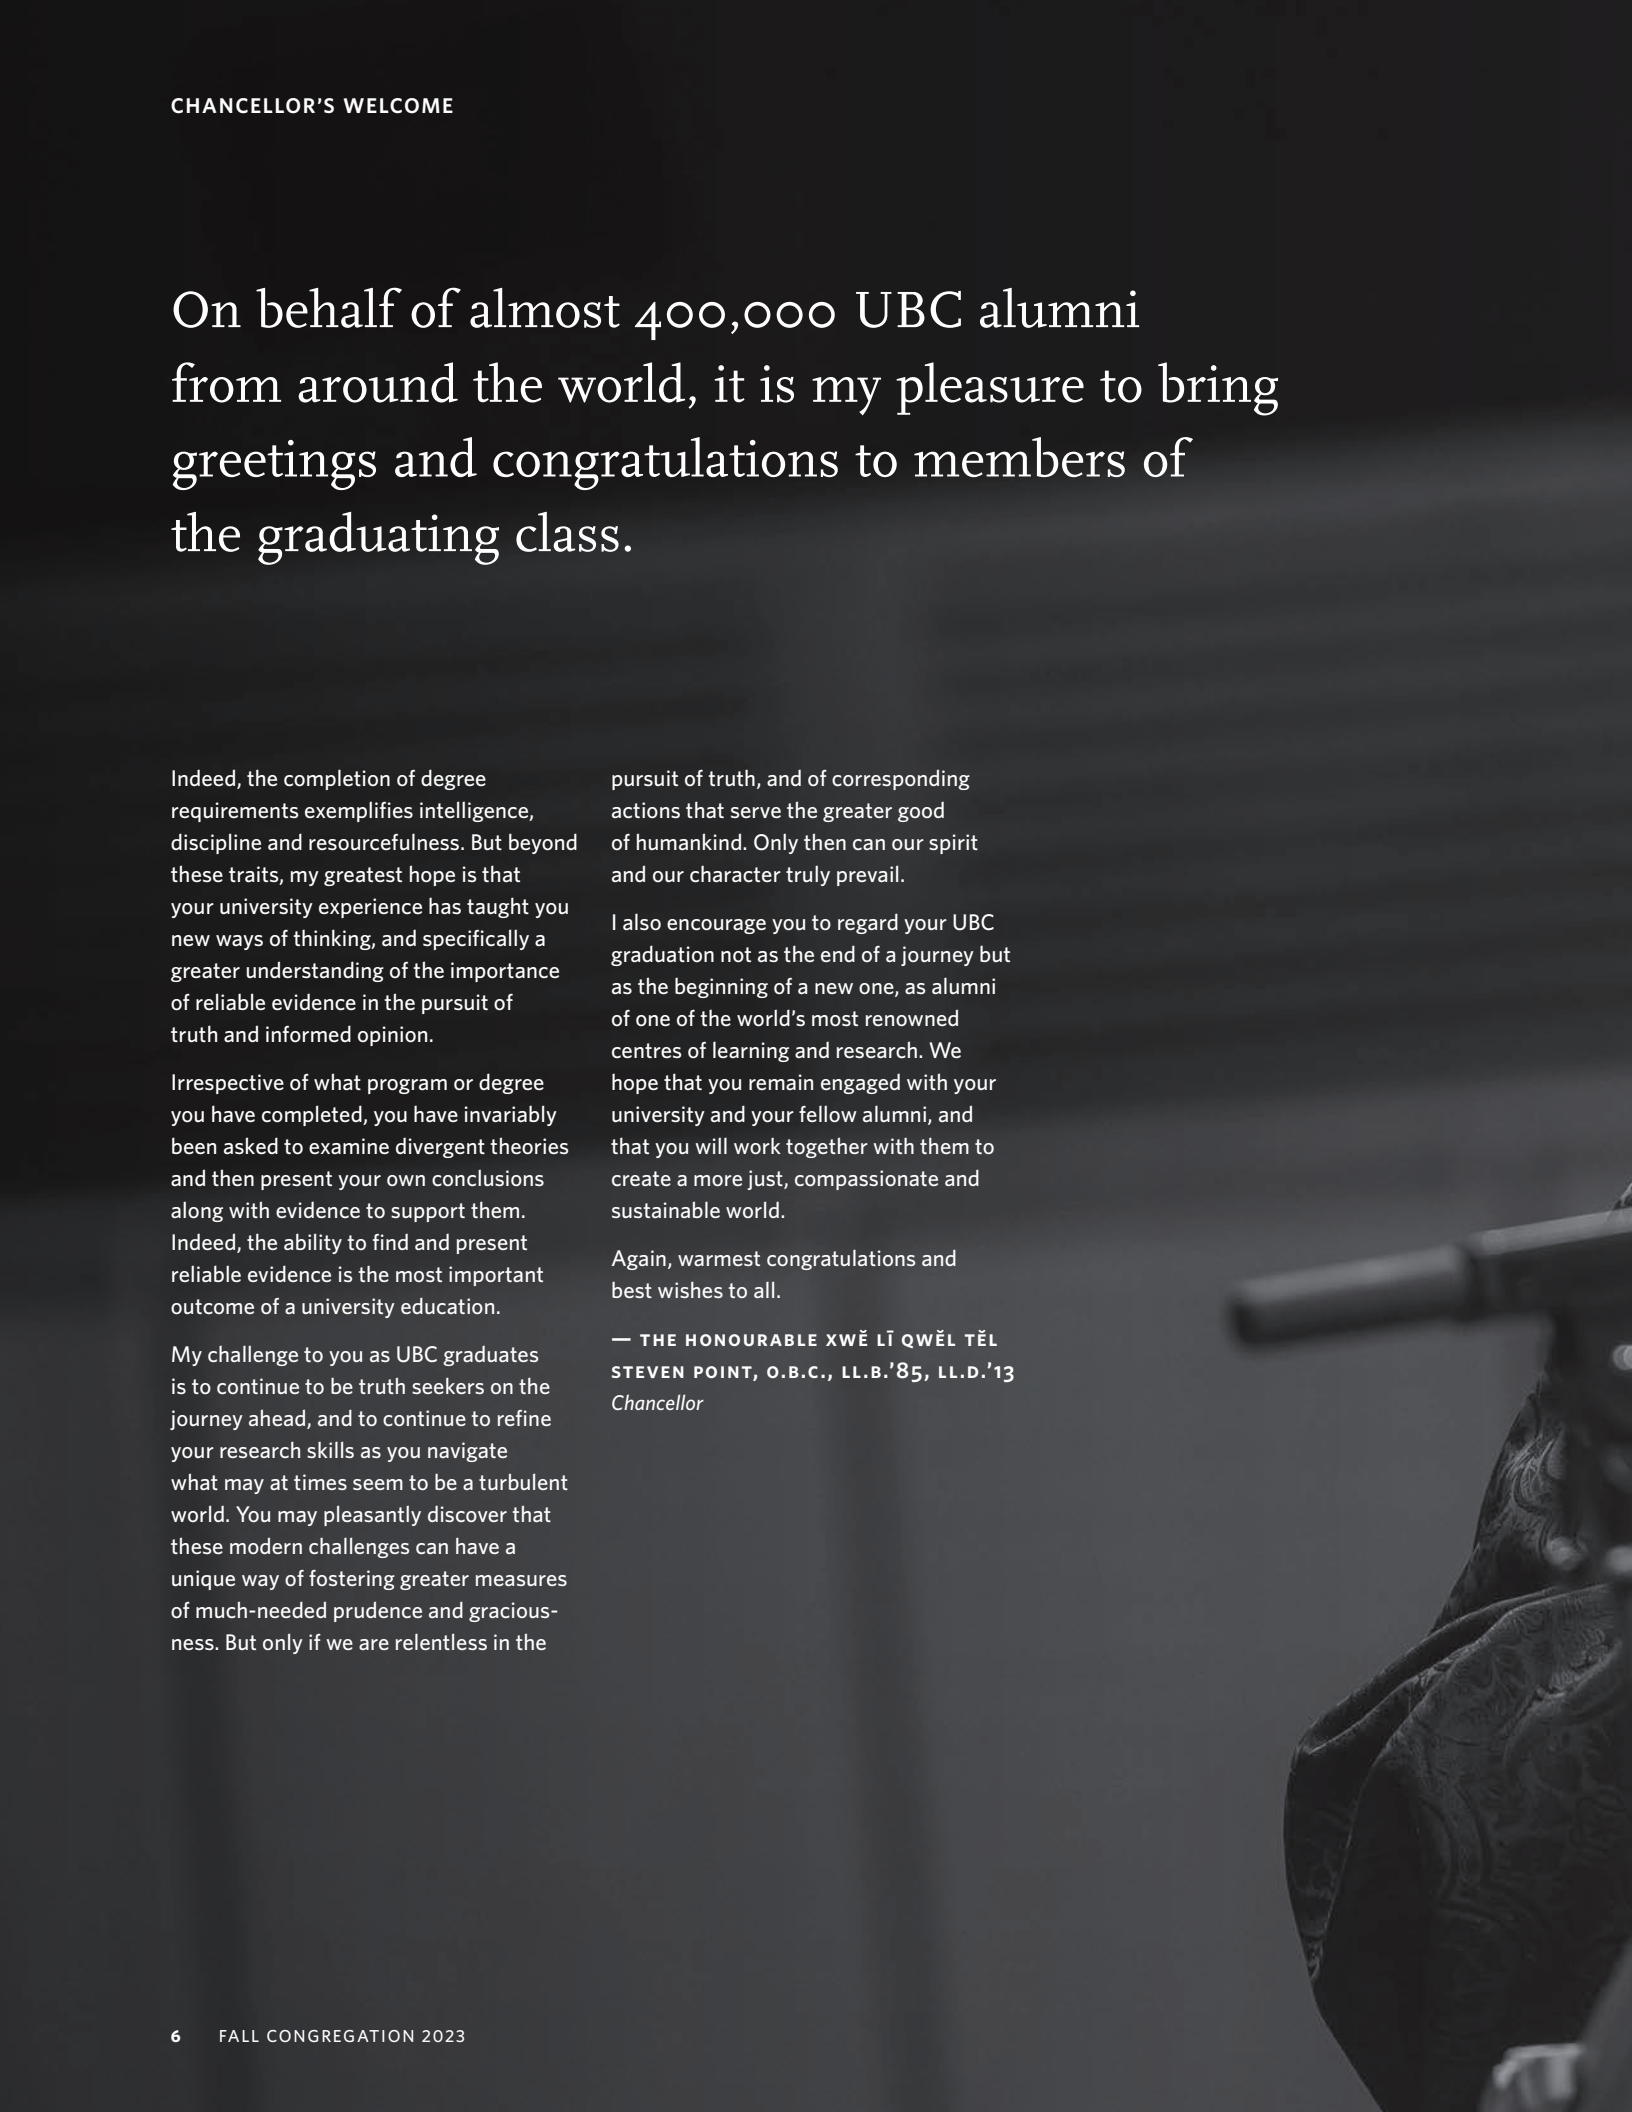
Irrespective of what program or degree you have completed, you have invariably been asked to examine divergent theories and then present your own conclusions along with evidence to support them. Indeed, the ability to find and present reliable evidence is the most important outcome of a university education.

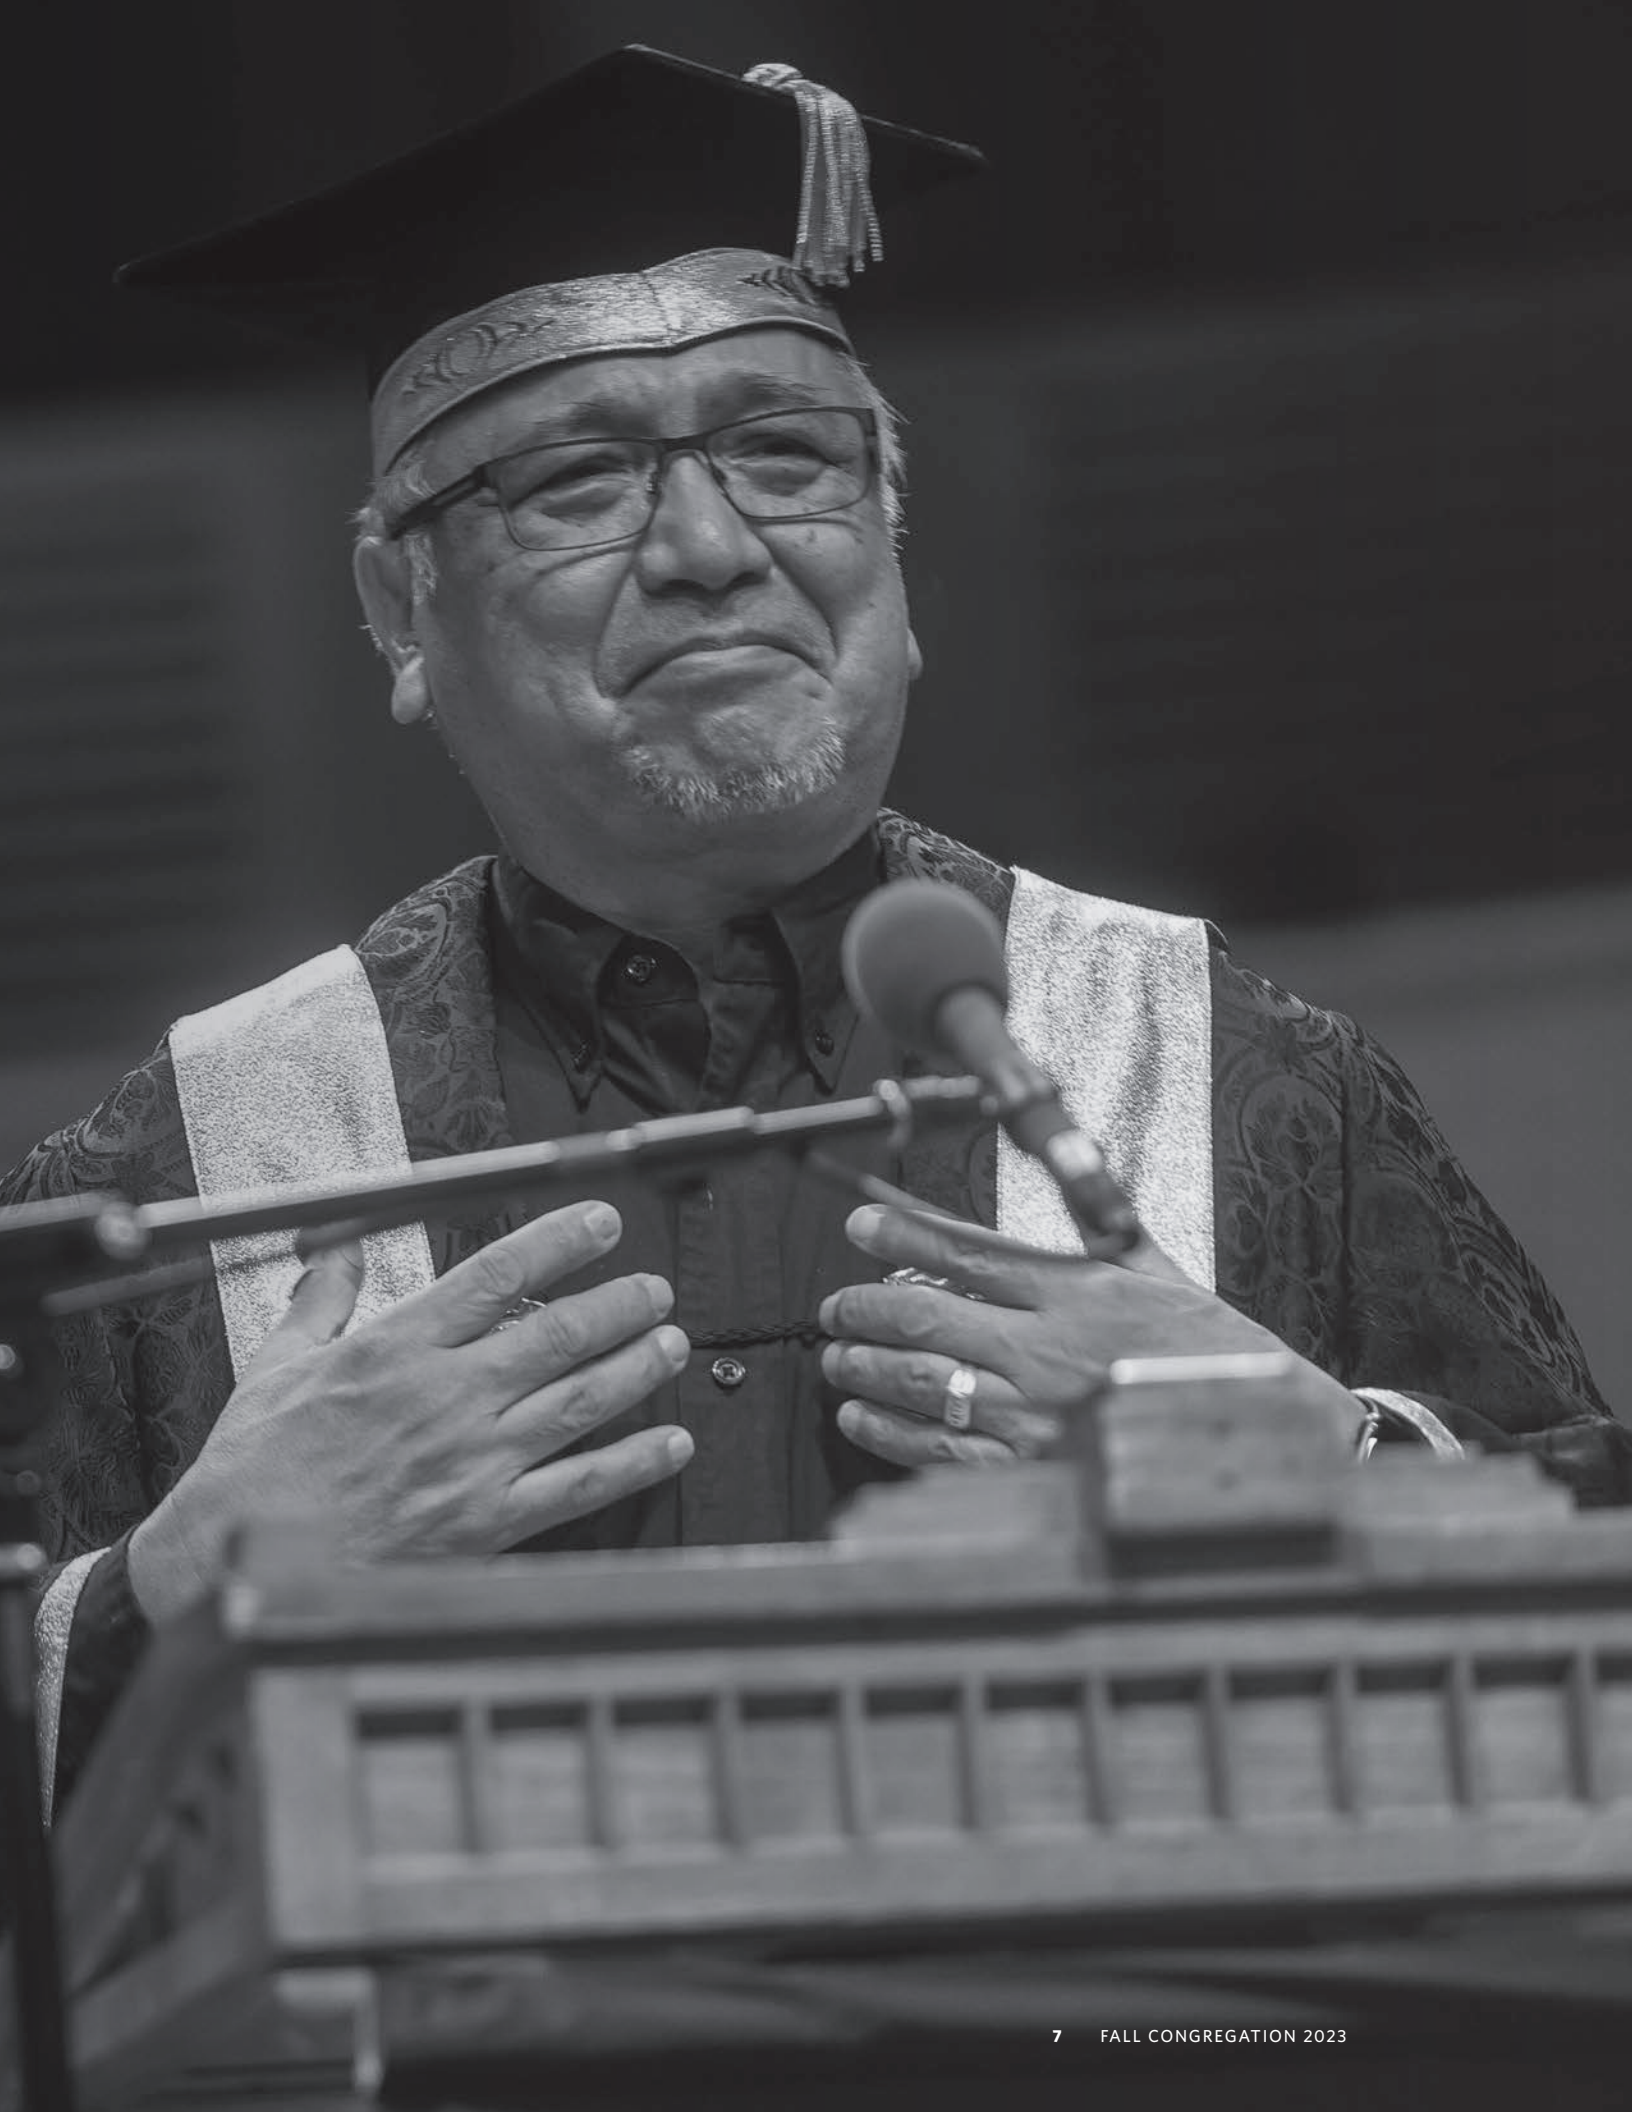
My challenge to you as UBC graduates is to continue to be truth seekers on the journey ahead, and to continue to refine your research skills as you navigate what may at times seem to be a turbulent world. You may pleasantly discover that these modern challenges can have a unique way of fostering greater measures of much-needed prudence and graciousness. But only if we are relentless in the pursuit of truth, and of corresponding actions that serve the greater good of humankind. Only then can our spirit and our character truly prevail.

I also encourage you to regard your UBC graduation not as the end of a journey but as the beginning of a new one, as alumni of one of the world's most renowned centres of learning and research. We hope that you remain engaged with your university and your fellow alumni, and that you will work together with them to create a more just, compassionate and sustainable world.

Again, warmest congratulations and best wishes to all.

— THE HONOURABLE XWĚ LĪ QWĚL TĚL STEVEN POINT, O.B.C., LL.B.'85, LL.D.'13
Chancellor





Congratulations on your hard work and perseverance. You should be exceptionally proud, and we are exceptionally proud of you!

As I begin my own journey as the 17th President and Vice-Chancellor of the University of British Columbia, I am truly honoured to mark this important milestone with you.

Tuum Est. It is Yours.

I am inspired to learn these sage words, which so elegantly capture both UBC's promise to you and your boundless potential, have been the university's motto for over 100 years.

You are now a graduate of UBC and I hope you will carry those words with you as you embark on the next chapter of your life's journey. May they always be a reminder of all that dwells inside of you and of the agency you possess to shape a better world.

Graduating with a degree from one of the top 40 universities in the world helps to open doors. Please take the time to pause, savour the moment, and reflect upon how you now stand at the threshold of your next great adventure.

Looking back to UBC's first graduating class in 1916, it is clear how much smart, engaged people like yourselves have changed this country and made it a better place. Over that period, our university has changed from a small, provincial university to a global research and innovation powerhouse with a community of almost 400,000 alumni from 150 countries around the world.

UBC alumni do incredible, world-changing things, and you are now a part of this amazing community. Today, UBC alumni thrive in every realm of achievement—as scientists, artists, entrepreneurs, educators, and leaders—helping to address the most pressing issues of our time.

In the same way, think about how much you yourself have changed in your time at UBC. Think about all the people you met, the discussions you had, and the contributions you made. Taken together, these experiences have shaped you in ways that will serve you well as you rise to meet the challenges of the world.

Each of you has the capacity and skill to succeed and make our world a better place. UBC has been honoured to serve as your home, and please know that you will always be welcome here.

Again, all my congratulations and all the best on your journey!

— BENOIT-ANTOINE BACON, B.A. (HONS), M.SC., PH.D.

Belief, knowledge, ritual, and technological practices, were all handed down here from generation to generation—just as they are today to students from diverse communities and backgrounds.

Honorary degrees recognize individuals who have made substantial contributions to society. Conferred *honoris causa*, "for the sake of honour," these degrees are awarded as one of three types: Doctor of Laws, Doctor of Letters and Doctor of Science.

Thomas Ming Swi Chang, O.C.
As an undergraduate student at McGill University, Thomas Chang accomplished the remarkable feat of creating the world's first artificial cell, sparking a new and dynamic field of research and development. After completing his MDCM and PhD at McGill, he remained to become a Professor of Physiology, Medicine and Biomedical Engineering and director of the Artificial Cells and Organs Research Centre. His work on the medical uses of artificial cells brought him to international prominence, including three nominations for a Nobel Prize and his installation as an Officer of the Order of Canada.

Setsuko Thurlow, C.M.
A survivor of the 1945 Hiroshima atomic bombing, Setsuko Thurlow's commitment to anti-nuclear advocacy began in 1954 when she voiced her opposition to tests of even more powerful hydrogen bombs by the U.S. in the Marshall Islands. Highlights of her long career include testifying widely before world leaders on behalf of the International Campaign to Abolish Nuclear Weapons in support of the Treaty on the Prohibition of Nuclear Weapons. She also served as a social worker in a number of Toronto-based agencies and led the establishment of the Japanese Family Services of Metropolitan Toronto.

PROFESSOR BENOIT-ANTOINE BACON

Dr. Benoit-Antoine Bacon started a five-year term as the 17th President and Vice-Chancellor of the University of British Columbia on November 1, 2023. Since 2020, he has also been serving on the Board of Directors of Universities Canada.

As President, Dr. Bacon leads the academic mission and operations of UBC as it continues to evolve as a global institution that is consistently ranked amongst the best universities in the world.

Before joining UBC, Dr. Bacon served in several academic leadership roles, including as President and Vice-Chancellor of Carleton University in Ottawa, Provost and Vice-Principal (Academic) at Queen's University in Kingston, and as Provost and Vice-President (Academic Affairs) at Concordia University in his hometown of Montreal, where he was recognized with an award as Sustainability Champion.

Dr. Bacon holds a PhD in neuropsychology from the University of Montreal, after which he undertook a post-doctoral fellowship at the University of Glasgow, Scotland. His research in the field of cognitive neuroscience focuses on the links between brain activity and perception in the visual, auditory and vestibular systems, as well as on multisensory integration.

Sharing his own lived experience, he advocates nationally for open conversations about mental health and substance use. These efforts have been recognized with a Transformational Leader Inspiration Award from the Royal Ottawa Hospital, and the Honorary Presidency of the Canadian Psychological Association.

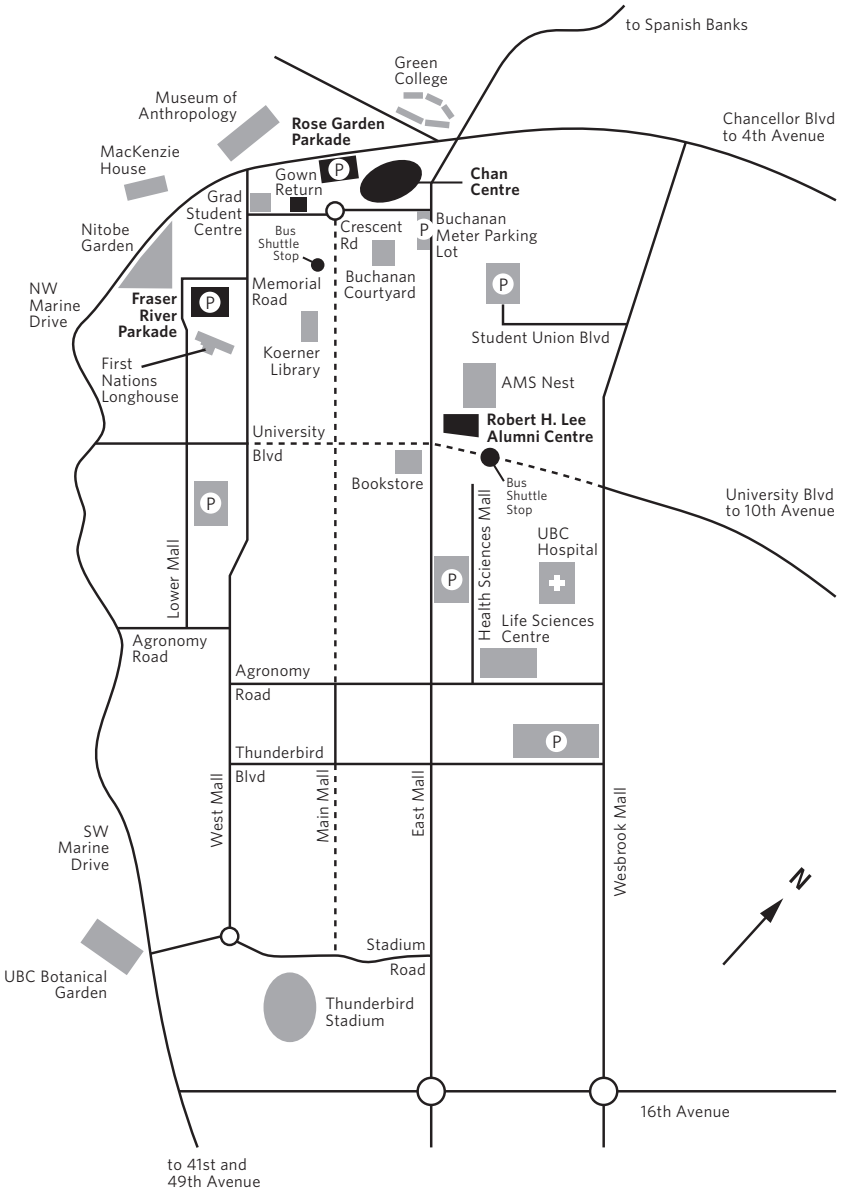
O CANADA

O Canada
Our home and native land!
True patriot love in all of us command.
With glowing hearts we see thee rise,
The True North strong and free!
From far and wide,
O Canada, we stand on guard for thee.
God keep our land glorious and free!
O Canada, we stand on guard for thee.
O Canada, we stand on guard for thee.



Welcome, Class of 2023, to your new and honoured place among almost 400,000 UBC alumni in 150 countries. That's a powerful network to help build your life and make a real difference.

Many students don't realize that when you graduate from UBC, you automatically become a member of *alumni UBC* and your relationship with the University enters a whole new phase.

You might be surprised at just who your fellow alumni are, and their levels of accomplishment, influence and contribution to society. No matter where you go, you will find yourself in the company of amazing people who are making a real difference in the world—educators, artists, doctors, nurses, business and community leaders—UBC grads who will be your role models, mentors, colleagues and friends. *alumni UBC* will help you connect through our email updates, website and social networks.

You can participate in our mentoring, cultural, education and career-building programs, here in Vancouver and around the world through alumni networks as far away as London, Hong Kong and Seoul, or as close as Victoria, Calgary and Toronto.

On the Point Grey campus, the Robert H. Lee Alumni Centre is your alumni home for life, where you can make alumni connections, attend events or book your own meetings or celebrations.

Remember our motto: *Tuum Est* ("It is yours"). UBC is still yours.

It will always be yours. So reach out. Stay in touch. Ask for help when you need it. Lend a hand when you can.
